Football School

THE ACTIVITY

Sevilla Football Academy is a non-federated football school dedicated to developing young talent in a fun, structured, and professional environment. **Our academy is led by Sevilla FC coaches, ensuring that every player receives top-level training based on the Sevilla FC methodology.**

We focus on skills development, helping each player improve their technique, tactical understanding, and overall game awareness. Players also receive official Sevilla FC kits, allowing them to feel part of the club while training and competing.

The academy participates in competitions and tournaments, providing players with opportunities to test their skills, gain match experience, and enjoy the excitement of competitive football in a supportive environment.

SAGE FOOTBALL SCHOOL BY

SEVILLA FC

Be part of Sevilla Academy!!

Following the **agreement between Sage College and Sevilla FC, we are excited to launch this project together.** With the experience of Sevilla FC, which runs a grassroots football school with more than a thousand children, we are confident this academy will be a great success.

AGES, DAYS AND PRICES

Students from Reception up to Year 6

Tuesday and Thursday 15:20-16:20

120 € per term 40€ Registration Fee (includes Sevilla FC training kit)

Sage International Tennis Club

THE ACTIVITY

It is a dynamic and engaging activity where students enjoy tennis while developing discipline, teamwork, and respect for others.

Training sessions take place on our brand new Tennis courts, offering the perfect environment for all levels — from beginners to competition players.

Students become familiar with the ball and racket through progressive exercises focused on control, coordination, positioning, and movement. As they advance, they learn technical and tactical aspects of the game, preparing to participate in friendly matches and competitions throughout the school year.

SAGE INTERNATIONAL TENNIS ACADEMY

With the 2025 school year, **we are excited to announce the launch of Sage International Tennis Academy, led by Bruno Argudo**, professional coach and director of our PAR (High Performance) Tennis Program. Our academy is dedicated to providing comprehensive tennis training for players of all ages and levels, combining technical excellence, physical conditioning, and mental development.

Under Bruno Argudo's guidance, Sage International Tennis Academy aims to nurture talent, foster discipline, and help players reach their highest potential in a supportive and professional environment.

AGES, DAYS AND PRICES

Tennis 2: Monday and Wednesday Year 3-6 3.20-4.20pm

Tennis 1: Tuesday and Thursday Reception- Year 2 3.20-4.20pm

120€ per term 40€ Registration Fee (includes Annual Federation Fee and polo shirt)

Tennis after school (under request)

Nihon Tai Jitsu

THE ACTIVITY

Nihon Tai Jitsu is a martial art with Japanese origins and philosophy, but with a Western conception. It is one of the most **effective methods of self-defense**.

The classes have a high pedagogical and participatory content, focusing on martial technical aspects (basic techniques, katas, kihon waza, and self-defense) based on bushido (the ethical code of martial arts that promotes respect, justice, and fairness).

Students will improve their concentration, energy management, and human values.

ANPEHI CLUB

ANPEHI is an inclusive sports club. We specialise in Nihon Tai Jitsu and women's self-defense for everyone. We have been operating since 2010 and are supported by the Royal Spanish Karate Federation and Associated Disciplines, as well as the Higher Sports Council. Additionally, our manager heads the Para Nihon Tai Jitsu department at the national level. This is the 4th year for us developing Nihon Tai Jitsu at Sage College.

AGES, DAYS AND PRICES

Students from Reception up to Year 6

Monday and Tuesday - 15:20-16:20

120€ per term - 60€ Karate Annual Federation Fee

Students should bring karate clothing (the teachers will provide the details)

Dance, Imperial Ballet & Modern Theatre

THE ACTIVITY

This combined class offers students the opportunity to study both Imperial Classical ballet and Modern Theatre dance, affiliated with the Imperial Society of Teachers of Dance (ISTD).

Ballet develops strength, coordination, musicality, and discipline, providing an excellent technical foundation for all styles of dance.

Modern is a highly expressive and dynamic genre that blends rhythm, style and movement, encouraging creativity and confidence.

Together, these classes build strong technique, improve posture and flexibility, and develop stage presence. Performance opportunities will showcase students progress and talent.

Rebecca, , trained and performed professionally before founding and running her own successful UK dance school—coming full circle as former students she guided now teach there. She is a qualified and accredited ISTD teacher and recently achieved Qualified Teacher Status. With years of experience, Becky has expertly prepared students for ISTD exams—Ofqual-regulated and carrying equivalents to GCSE and A-level (RQF Levels 1–3 and above) . A certified fitness instructor and licensed Zumba teacher, she brings passion, professionalism, and focus to every class.

REBECCA HENMAN

AGES, DAYS AND PRICES

Dance: Wednesday Year 1 to 6 3.20-4.20pm

85€ per term - Students should bring dancing clothing (the teachers will provide the details)

Roller Blading

THE ACTIVITY

- **Guaranteed Fun**

Each lesson is a challenge turned into play: slaloms, circuits, and mini-challenges that capture children's enthusiasm from the very first day.

- **Values that Endure**

We nurture respect, teamwork, and perseverance. Every small success is celebrated as a true championship!

- **Exclusive Methodology**

Our director, Aritz Ortega, has developed the "13 Points of the Professional Instructor": a guide that tailors teaching to each pupil's pace, level, and personality.

- **Complete Safety**

Skates, helmets, and protective gear are all provided. Pupils are under the constant supervision of certified instructors.

- **Visible Progress**

Personalised follow-up: photos, videos, and feedback so you can see their progress from lesson to lesson.

ESCUELA PATINA

Patina School is the meeting point where children's energy transforms into confidence, skill, and a drive for self-improvement.

Through inline skating, we teach much more than technique: we cultivate respect, inclusion, and sportsmanship, while each child discovers the joy of moving forward on wheels.

With our own materials, professional instructors, and an inspiring environment, we turn every glide into a small victory and every challenge into a personal achievement.

Welcome to the Patina family, where passion is lived wheel by wheel!

AGES, DAYS AND PRICES

Roller Blading: Thursday Reception - Year 6 3.20-4.20pm

70€ per term Students should bring roller blading equipment (the teachers will provide the details)

Robotics Primary

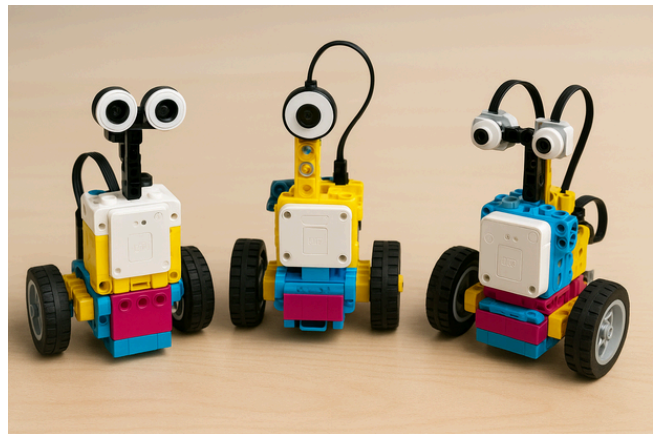

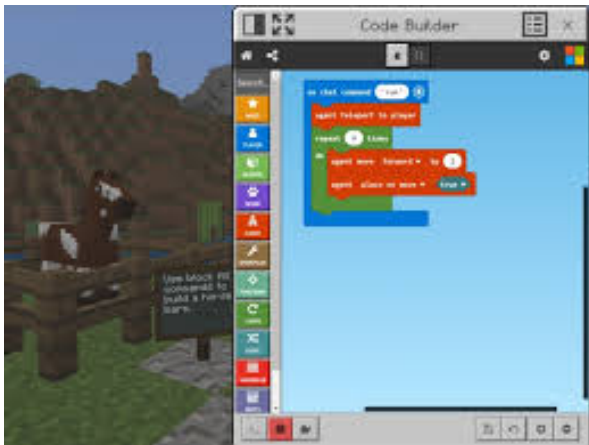

THE ACTIVITY

Students will step into the **world of technology and innovation through hands-on robotics activities**. They'll explore building and programming robots with Lego essential, coding with **Microbits**, **designing and printing in 3D**, and **even programming in Minecraft**. Along the way, they'll also create and code their own games, developing problem-solving and logical thinking skills.

Through teamwork and creativity, students will gain confidence in using cutting-edge technology while having fun bringing their ideas to life. Each term finishes with a showcase where students can present their projects and inventions.

Whether you're curious about how things work or excited to invent something new, Robotics is the perfect place to imagine, create, and innovate!

MINECRAFT

ADAM BULL

My name is Adam Bull, and I have been **teaching robotics for over 15 years**. I'm passionate about all things technology—robotics, coding, and 3D design—and I love sharing that passion with students. Over the years, I've helped young people bring their ideas to life: from building and programming robots, to designing their own creations in 3D, and even coding games. Over the years several of my students have won or been finalists in local and national competitions.

AGES, DAYS AND PRICES

Students from Year 3 up to Year 6

Tuesday and Thursday 4:30 -5.30pm

130€ per term **35€** Registration Fee (includes Minecraft Education Licence)

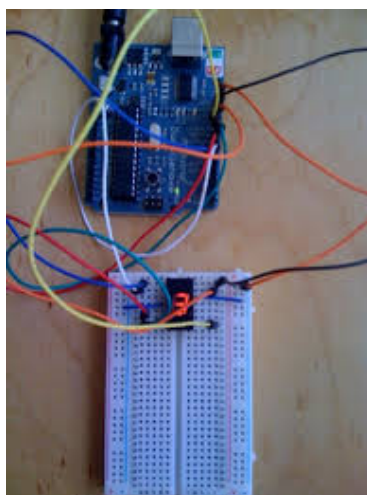

Robotics Secondary

THE ACTIVITY

The Robotics Club for secondary students is an exciting playground for future engineers, scientists, and tech innovators. Members will dive into the **world of IoT with Arduino, creating smart, interactive projects that connect the digital and physical worlds. They'll also take on advanced robotics challenges with LEGO Spike Prime, developing hands-on problem-solving skills.**

The club also brings imagination to life through **advanced 3D design and printing with Fusion 360**, where students can create custom parts for their inventions. Students will learn to **program in python and C++**. Each month we will have an Esports activity teach teamwork, strategy, and quick thinking. This is a space where young innovators get the training, skills, and inspiration to become the engineers, scientists, and creators of tomorrow.
