Football School

THE ACTIVITY

Sevilla Football Academy is a non-federated football school dedicated to developing young talent in a fun, structured, and professional environment. **Our academy is led by Sevilla FC coaches, ensuring that every player receives top-level training based on the Sevilla FC methodology.**
We focus on skills development, helping each player improve their technique, tactical understanding, and overall game awareness. Players also receive official Sevilla FC kits, allowing them to feel part of the club while training and competing.
The academy participates in competitions and tournaments, providing players with opportunities to test their skills, gain match experience, and enjoy the excitement of competitive football in a supportive environment.

SAGE FOOTBALL SCHOOL BY

SEVILLA FC

Be part of Sevilla Academy!!

Following the **agreement between Sage College and Sevilla FC, we are excited to launch this project together**. With the experience of Sevilla FC, which runs a grassroots football school with more than a thousand children, we are confident this academy will be a great success.

AGES, DAYS AND PRICES BY TERM

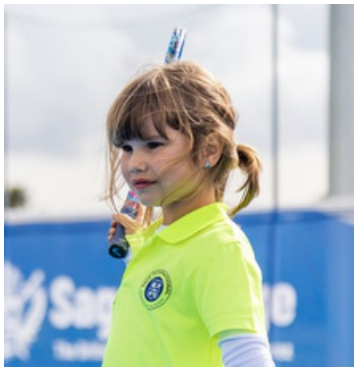
Reception - Year 6: Monday and Wednesday 15:20-16:20
Key Stage 3: Monday and Tuesday 12:25-13:10

140€ per term **50€** Registration Fee (includes Sevilla FC training kit)

SITA

THE ACTIVITY

Sage International Tennis Academy offers a dynamic tennis programme for students of all ages and abilities, from beginners to more experienced players.
Sessions focus on developing technique, coordination, movement and tactical understanding, while promoting discipline, teamwork, resilience and respect.
Students train in age- and level-appropriate groups and progress through a combination of technical exercises, games and match play. Throughout the year, they will also have opportunities to take part in friendly matches, internal tournaments and external competitions.



SAGE INTERNATIONAL TENNIS ACADEMY

With the 2025 school year, **we are excited to announce the launch of Sage International Tennis Academy, led by Bruno Argudo,** professional coach and director of our PAR (High Performance) Tennis Program. Our academy is dedicated to providing comprehensive tennis training for players of all ages and levels, combining technical excellence, physical conditioning, and mental development.
Under Bruno Argudo's guidance, Sage International Tennis Academy aims to nurture talent, foster discipline, and help players reach their highest potential in a supportive and professional environment.

AGES, DAYS AND PRICES BY TERM

Monday to Thursday Y1-Y6: 3.20-4.20pm **Y6-Y9** 4:20 - 5:20pm

1 day/week	2 days/week	3 days/week	4 days/week
€75	€129.60	€175	€210

40€ Registration Fee
Termly payments will be made through the 360Player platform.
Further information on registration and payment procedures will be shared shortly. Additional formats, training options and programmes for other age groups will also be available, with full details to be communicated in a separate email soon.
For any questions in the meantime, families can contact us at tennis@sagecollege.es.

Rugby

THE ACTIVITY

Our school rugby programme introduces children to the game in a fun, welcoming and supportive environment. Whether they are trying rugby for the first time or have played before, students can develop their skills at a pace that suits their age and experience.

Through games, exercises and team activities, sessions build coordination, movement, ball-handling skills and an understanding of how rugby is played. Children learn to communicate, make decisions and solve problems together, while gaining confidence in their own abilities.

CLUB DE RUGBY ATLÉTICO PORTUENSE

Club de Rugby Atlético Portuense is one of Spain's most established rugby clubs. For 55 years, we have promoted rugby and its values, developing players from our junior teams through to national and international level.
Drawing on our experience with young players, we bring rugby into schools as a way to develop teamwork, perseverance, movement skills and problem-solving. We help children enjoy the game and grow at their own pace, with opportunities to progress from grassroots rugby towards competitive play.

Year 1 - Year 6: Tuesday and Thursday 15:20-16:20

130€ per term **15€** Registration Fee (includes a t-shirt)

Nihon Tai Jitsu

THE ACTIVITY

Nihon Tai Jitsu is a martial art with Japanese origins and philosophy, but with a Western conception. It is one of the most **effective methods of self-defense.**

The classes have a high pedagogical and participatory content, focusing on martial technical aspects (basic techniques, katas, kihon waza, and self-defense) based on bushido (the ethical code of martial arts that promotes respect, justice, and fairness).

Students will improve their concentration, energy management, and human values.

ANPEHI CLUB

ANPEHI is an inclusive sports club. We specialise in Nihon Tai Jitsu and women's self-defense for everyone.

We have been operating since 2010 and are supported by the Royal Spanish Karate Federation and Associated Disciplines, as well as the Higher Sports Council. Additionally, our manager heads the Para Nihon Tai Jitsu department at the national level. This is the 4th year for us developing Nihon Tai Jitsu at Sage College.

Students from Reception up to Year 6
Tuesday and Thursday - 15:20-16:20
130€ per term - 60€ Karate Annual Federation Fee
Students should bring karate clothing (the teachers will provide the details)

Flamenco

THE ACTIVITY

Flamenco is an expressive dance discipline that helps improve coordination, balance, posture and rhythm, while building confidence and creativity. Classes will combine warm-up and flexibility exercises with **flamenco technique, including footwork, arm and hand movements, clapping and turns.** Students will gradually bring these elements together through choreographies adapted to their age and ability.

Throughout the year, students will have the opportunity to showcase their progress in two special events: a Christmas show and an end-of-year performance. These performances will celebrate their achievements and give families the chance to enjoy what their children have learnt.
The activity offers a fun and engaging way to discover Andalusian culture through music, movement and dance.

CARMEN BEJARANO

Carmen Bejarano
ESCUELA DE BAILE FLAMENCO

We are delighted to welcome Escuela de Baile Flamenco Carmen Bejarano, a dance school based in El Puerto de Santa María specialising in flamenco, to Sage College.
Through this collaboration, a teacher from the school will lead flamenco classes on our campus, introducing students to the rhythms, techniques and expressive qualities of this traditional Andalusian art form.

Wednesday - 15:20-16:20
120€ per term - Students should bring flamenco clothing (the teachers will provide the details)

Musical

THE ACTIVITY

Musical Theatre is one of the most exciting and creative activities at Sage College. Entirely in English, students work throughout the year towards a full musical production, performed at the end of the school year.
Our annual musicals have become a real highlight of the Sage College calendar, with previous productions such as Aladdin, Beauty and the Beast and Mamma Mia! bringing together students, families and staff for unforgettable performances.
Through acting, singing, dancing and rehearsing as a cast, students develop confidence, creativity, communication, teamwork, expression and stage presence, while naturally improving their English in a fun and engaging environment.
More than an extracurricular activity, the annual musical is a true Sage College event!

EMILY WESTWOOD

Emily is starting her 9th year at Sage and holds a BA in English Literature and Theatre Studies from the University of Leeds, a PGCE from the University of Nottingham and a Postgraduate Diploma in Theatre Directing from LAMDA. With international teaching and leadership experience, she brings expertise and creativity to her role as a drama educator. Emily is passionate about nurturing young people's performance skills, creativity and confidence.

Robotics Primary

THE ACTIVITY

Students will step into the **world of technology and innovation through hands-on robotics activities.** They'll explore building and programming robots with Lego essential, coding with **Microbits, designing and printing in 3D, and even programming in Minecraft.** Along the way, they'll also create and code their own games, developing problem-solving and logical thinking skills.

Through teamwork and creativity, students will gain confidence in using cutting-edge technology while having fun bringing their ideas to life. Each term finishes with a showcase where students can present their projects and inventions.

Whether you're curious about how things work or excited to invent something new, Robotics is the perfect place to imagine, create, and innovate!

ADAM BULL

My name is Adam Bull, and I have been **teaching robotics for over 15 years.** I'm passionate about all things technology, robotics, coding, and 3D design, and I love sharing that passion with students. Over the years, I've helped young people bring their ideas to life: from building and programming robots, to designing their own creations in 3D, and even coding games. Over the years several of my students have won or been finalists in local and national competitions.

Robotics Secondary

THE ACTIVITY

The Robotics Club for secondary students is an exciting playground for future engineers, scientists, and tech innovators. Members will dive into the **world of IoT with Arduino, creating smart, interactive projects that connect the digital and physical worlds. They'll also take on advanced robotics challenges with LEGO Spike Prime, developing hands-on problem-solving skills.**

The club also brings imagination to life through **advanced 3D design and printing with Fusion 360**, where students can create custom parts for their inventions. Students will learn to **program in python and C++**
Each month we will have an Esports activity teach teamwork, strategy, and quick thinking. This is a space where young innovators get the training, skills, and inspiration to become the engineers, scientists, and creators of tomorrow.
